

Our double-acting manual power units are available with a range of different oil volumes. The working pressure of our manual units is 700 bar. Suitable high-pressure hydraulic hoses in lengths of 1 to 30 m are also available. Further lengths available on request.

A pressure manometer is available separately.

Manual power units		
Usable oil capacity in l	Handle effort in kg	Weight in kg
1	50	5.6
2.3	38	10.5
2.5	No data	8
4.08	47	14.1
5	40	11.6
5	38	15.2
