

# CD20 Cable Drum Trailer

## Road Legal – Single Axle

CD20 Highways Cable Trailer with 830kg Payload is a specialized trailer used for transporting and deploying cable, such as power cables, fiber optic cables, and telecom cables, along highways and construction sites. It is designed with a sturdy frame to support large, heavy cable reels and includes features like: Hydraulic or manual reel lifting mechanisms for easy loading and unloading. Rotating spindles to unwind the cable smoothly during installation. Safety features like brakes, stabilizers, and lights for highway use.
